### **Ballet/Tap Combination Classes**

These classes enhance basic skills and coordination while providing fun exercises that teach both gross and fine motor skills. With the use of story-telling and fun music, dancers use props like parachutes, ribbon streamers, and wands, which guide the children into the wonderful world of dance. The tap portion of the class teaches simple rhythms while re-enforcing counting and weight changes.

### **Barre/Tap**

This class introduces dancers to the use of a traditional ballet barre and center class. Bridging the gap from beginner classes to preparing for the elementary level in ballet, tap, and jazz.

### **Creative Movement**

This class is a nice mix between a ballet class and a modern jazz class. It allows for fun exploration of movement and music for first-time students. This class is very prop-heavy, making use of the dancers' imaginations.
